Forecast for Monday 30 Nov 2020

Weather: Staying mainly dry overnight but very cloudy, some light rain and drizzle will move across the area in the morning and westerly winds will also readily pick up. Staying dull for much of the day. Staying cloudy and drizzly for much of the evening.

Chance of cloud free mountain/hill tops above 600m: 20% or less chance of cloud free tops with extensive low cloud around the tops. Cloud base will generally be around 400m during the day.

Visibility: Visibility will generally be quite poor in rain and drizzle, it may become moderate at times but good views will be hard to come by and navigating may be tricky at times.
